

Aya Shaaban Gameel

Junior Data Analyst | AI & Data Analytics Specialist

ayashaaban049@gmail.com | (+2)01019872096 | Cairo-Egypt | [linkedin.com/in/aya-shaaban25](https://www.linkedin.com/in/aya-shaaban25)

Career Objective

Data Analytics Specialist with a strong scientific background and ongoing training in Data Analytics and Artificial Intelligence. Skilled in data analysis, statistical modeling, Python, Machine Learning and Deep learning fundamentals, with the ability to extract insights and build data-driven solutions. Leverages a Bachelor's degree in Science to apply analytical thinking, experimentation, and problem-solving to complex datasets.

Experience

Digilians Initiative – Ministry of Communications and Information Technology (MCIT) & The Egyptian Military.Applied AI & Data Analytics Intern (9-Month Diploma). 12/2025 – Present

- Executed data querying, joins, filtering, and aggregation using SQL to support analytical and business use cases.
- Examined structured datasets using Advanced Excel (Pivot Tables, formulas, charts) to generate insights and management-ready reports.
- Designed and built interactive Power BI dashboards to monitor KPIs, trends, and operational performance.
- Utilized Python for data manipulation, basic automation, and analytical problem-solving tasks.
- Applied statistical analysis concepts and SPSS for academic and practical data analysis exercises.
- Collaborated with cross-functional teams during workshops and technical initiatives, enhancing analytical, communication, and presentation skills.

Medical Representative, Nali Pharma International 2017 – 2019
Responsible for product promotion, market coverage, and achieving sales targets while maintaining professional relationships with healthcare providers.

Former Chemist, Ultra Lab
Conducted laboratory tests and analyses, prepared samples, and ensured compliance with laboratory safety and quality procedures.

Education

Diploma in Analytical Biochemistry, Zagazig University 07/2022
• Very Good

Bachelor of Science (Chemistry and Geology), Zagazig University 2017
• Good

Skills

Technical Skills

Data Analysis

Excel, Data Cleaning, Data Visualization, Pivot Tables, Charts.

Databases

SQL, Microsoft SQL Server, Writing Queries, Data Filtering, Joins.

Data Visualization & Tools

Power BI, Dashboard Design, Data Modeling, Basic Statistics.

Other

Problem Solving, Analytical Thinking, Data Interpretation, Reporting.

Language Skills

•**Arabic:** Native

•**English:** Very Good

•**French:** Very Good

Hobbies

- Reading
- Language Learning
- Researching
- Traveling
- Photography

Courses & Certifications

Google Data Analytics Professional Certificate, Coursera

2025 – 2026

• Learned the fundamentals of data analysis and data-driven decision making. • Worked on data cleaning, analysis, and visualization tasks. • Practiced using spreadsheets, SQL, and dashboards to present insights.

Digital Transformation & Technology

ICDL V5 Certification

Human Development Course

Projects

Digilians Bank — Management System [🔗](#), Project Description:

- End-to-end bank data analytics project covering relational database design and SQL business queries & views.
- Built a complete schema with Branches, Employees, Customers, Accounts, and Transactions entities.
- Developed an interactive Power BI dashboard for KPI reporting and branch performance analysis.

Tools: SQL, Power BI, Python, Excel, EDA.

Body Performance Analytics & Intelligent Classification System [🔗](#)

- Full ML pipeline analyzing human body performance data with 5 machine learning models: KNN, Decision Tree, SVM, Neural Network, and Linear Regression.
- Deployed an interactive Streamlit web app for real-time fitness classification and model comparison.
- Tools: Python, Streamlit, Scikit-learn, Pandas, Matplotlib, Seaborn.

Bikeshare System, Project Description:

- The datasets selected for three major cities in the United States – Chicago, New York City, and Washington. The system allows users to rent bicycles on a very short-term basis for a price. And our project is to produce insights based on our dataset and answer interesting questions about it by computing descriptive statistics.
- **Tools:** Python.
